CUT TO: THE NOVUS ANTI-AGING CENTER: YOUR “STAR SECRET” FOR YOUTH AND VITALITY

Why is it that some celebrities seem to exude youth and vitality at any age? How have they remained seemingly ageless, no matter how many years go by? This Caster Reporter has discovered one of their secrets and is going to share the inside scoop with you now; the Novus Anti-Aging Center, conveniently located in Studio City!

Owned and operated by CEO Stephanie Wolff PA-C, the Novus Anti-Aging Center is aiding celebrities and locals alike in keying into their body's own anti-aging secrets. Pioneering ground-breaking stem cell exosome and peptide therapy, Novus has also become the North America's #1 clinic for treating erectile dysfunction, Peyronie's disease and sexual performance. The Novus Anti-Aging Center additionally focuses on aiding women who are lacking libido and are looking to optimize their hormones and their sex lives. "At Novus, we want men and women of all ages to live their best, most fulfilling lives possible. After twenty plus years, I have found that the secret to looking good on the outside begins from the inside."

The Novus Anti-Aging Center specializes in hormone optimization using bio-identical hormones, peptides, and stem cell exosome therapy. Many men also visit the Novus Anti-Aging Center for the treatment of testosterone balancing, hair regrowth, and even elimination of chronic pain. Women see Wolff for a wide range of treatments including hormone balancing, cellulite reduction, urinary incontinence and the OShot®. The OShot® is a revolutionary non-surgical treatment that uses the patient's own blood platelets (PRP) to activate growth factors that rejuvenate the female orgasm system allowing more blood to flow to the organ, enhancing sensitivity and delivering dramatic improvement in sexual function.

With a resume that reads like a Hollywood A-Lister, Stephanie Wolff is one of the Nation's leading sexual wellness experts. She is also the co-founder of Launch Medical; the co-inventor of the Phoenix (at-home shockwave device); a Board-Certified Anti-Aging Specialist, Hormone and Peptide Expert with the American Academy of Anti-Aging Medicine (A4M); a Board-Certified Physicians Assistant and a Certified Weight-Loss Specialist with the National Academy of Sports Medicine. Stephanie's passion lies in helping her patients achieve their individual goals by customizing plans to achieve a one-of-a-kind roadmap. "We want each patient to live their best life and to truly live up to their fullest potential. I remind my patients that I am merely their coach, and I will provide them with all of the tools necessary to achieve their goals."

"It has always been my passion to help people," Stephanie explains. "Although I enjoyed my years in family practice, I felt that there was so much more to medicine. I didn't want to just 'manage' illness; I wanted to find the root causes and alleviate them. I wanted to be able to heal my patients from the inside, out. With my experience of 17 years working in cosmetic surgery, dermatology, women's health, and family practice, I am able to customize uniquely tailored programs for our patients that achieve real, lasting results."

Stephanie goes on to explain her true passion. "We aren't in the business of taking people's money and sending them on their way. We care about our patient's end goals and are honored to be with them on their health journeys."

I had one client who had been through the gamut of Anti-Aging and sexual wellness

clinics. To say he was 'skeptical' would be an understatement. I told him, 'I believe in what we do here and am so confident that we will get you the results you are looking for that I will treat you for one month, free of charge. If at the end of that month you don't see any results, we will go our separate ways. No hard feelings.' He has now been a patient at our clinic for 4 years and feeling the best he has ever felt. His marriage is thriving, he has expanded his business and has participated in multiple triathlons. I would call that a success!

Another patient has a very high profile, stress filled career. The daily stress of his workload along with three boys at home and maintaining a healthy marriage was overwhelming and exhausting. In his early 50's, he said 'I don't have the energy to compete with these young bucks that want my job. I go to bed after dinner and nap on weekends.' He put his faith in the Novus Protocol and six months later he's joined his local Crossfit gym, hired a business coach to help him expand his firm and is still left with enough energy to coach his son's teams on the weekend. His wife has even mentioned that for the first time in their relationship, she needs to keep up with him in the bedroom.

Sexuality and vitality are integral parts of truly enjoying life and health. As the years pass, the levels of hormones in our bodies decline, which can result in lethargy, brain fog and diminishing sex drive. Many of my patients say that their careers, relationships and health have been restored as a direct result of their treatments here at the Novus Anti-Aging Center."

The treatments Novus provides for men include hormone balancing with bio-identical hormones, peptide and stem cell exosome therapy, Shockwave therapy and the PShot®. The PShot® is designed to deliver lasting improvements in sexual performance; especially for those who have lost function due to enlarged prostate, prostate cancer, surgical side effects, pharmaceutical side effects, and even diabetes using their own platelet rich plasma (PRP) which contain growth factors and healing properties. Using your own PRP as a scaffolding, adding stem cell exosomes to the treatment dramatically heightens the results. Wolff calls this new breakthrough the GALAXY Shot.

"Unfortunately, modern medicine tends to act more as 'Sick-Care' than 'Health Care.' We believe each client is unique and there is not a one size fits all for health. It is our privilege to customize a program that caters to your specific goals," adds the ever astute Wolff. "I often use an analogy with my patients: if you take excellent care of your car, it will run much more efficiently and smoothly throughout the years. It is the same with your body. If you take care of your body now, you will see the benefits and rewards for years to come. This is our primary focus at the Novus Anti-Aging Center. We have A-list celebrities, industry executives, and clients who travel from all over the world seeking our services. For those patients who can't travel to see us in-person, we have co-invented the Phoenix; an in-home Shockwave device for the treatment of erectile dysfunction, sexual performance and Peyronie's disease."

When asked what makes a clinic a TOP 10 ANTI-AGING/BEAUTY SERVICE, Stephanie replied, "Does that clinic educate their patients? Do they listen to their patient's needs? Are they paying attention to their patient's goals? Are they customizing a program specific to that patient's wants and needs? At the Novus Anti-Aging Center, this is our passion with every patient."

Along with her medical expertise, Stephanie's patients have left a myriad of 5 Star Reviews for the Novus Anti-Aging Center.

She is a rare and sacred find in this medical world that tends to be confined and tied to old school thinking about aging and healing. I can not begin to say enough about the Novus Center, it's team, their follow up, their friendship and professionalism while riding my individual wave of change with its ever turning currents. I am truly grateful for the Novus Center."

—Tiffany R. (53)

"I suffered from Neuropathy for the last year where I couldn't even cross the street without severe pain. It stop me from playing ball and practicing martial arts. I went to see a Podiatrist who told me that it was something I had to live with. I continued my search for relief and found Novus. After one sonic wave treatment I could feel the warmth return to my feet and the intense burning was no longer there. I'm still in disbelief I started noticing a change about 3 days later. I'm so relieved and won't take my feet for granted again thanks to them."

—John T. (65)

"This establishment specializes in sexual wellness for men and women. I have experienced both the PShot and the NOVOWave therapy. Every employee at Novus has impressed me by their professionalism, attention to detail, and their friendliness. They are also very knowledgeable about hormones and how they work together along with blood flow issues that older men such as myself benefit from. I am recommending Novus Anti-Aging Center for anyone that needs to get their bodies tuned up so that they can once again enjoy all aspects of a healthy life."

—Rick R. (71)

"Stephanie is the best! She helped me lose weight, and get my diabetes and high blood pressure under control! She's an amazing provider and person! You will be lucky to be treated by her! She has an amazing heart!"

—Thammy S. (40)

"Stephanie's knowledge and guidance is like no other place, she is truly amazing!"

—Paul L. (49)

"I was feeling really tired, had no energy to do anything with the family. I finally decide to see Stephanie and her team. I got some blood work done, found out I had some issue. She was able to help me out. Now I'm feeling very energetic and I'm feeling great. I highly recommend Stephanie and her team."

—Daniel L. (43)
